

THE SICK BE NOURISHED PROJECT PRESENTS

...empowering communities in the provisions of their healthcare practice

what is clinic in a box?

The **Clinic In A Box** has been inspired by the need to empower communities and villages to become independent in the provision of their own healthcare practice. Thus bringing health care provision closer to those who need it, striving wherever possible to facilitate free health care.

Clinic In A Box contains a variety of equipment which is designed to be utilised in the creation of makeshift clinical facilities practically anywhere. The contents contain the initial equipment needed to allow practitioners to carry out primary healthcare checks within their villages and communities.

‘let the hungry be fed, the naked clothed, the sick be nourished, aged protected and infants cared for...’

contents of box

The contents of each Clinic In A Box are currently valued in excess of £400.

contents may vary

We receive medical equipment frequently and will be able to provide variations of **Clinic In A Box**. In some instances we may also be able to provide a tailor made **Clinic In A Box**.

There may be times where the contents of the **Clinic In A Box** may vary according to availability. We will always strive to provide the primary resources.

Special thanks to Capita for their donation of some of the clinical items found in **Clinic In A Box**.
